Maximum Marks	2 Marks

Data Flow Diagram

This Data Flow Diagram (DFD) shows how data moves through the OptiCrop system - between external entities, processes, and data stores, as described below.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data (e.g., Farmer, Agri Knowledge Base).
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data (e.g., Validate Soil Data, Run ML Prediction).
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use (e.g., Input Datastore, Crop Recommendation Store).
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with what data is being passed.

OptiCrop Data Flow Diagram

The diagram below illustrates how soil and climate data entered by the farmer flows through validation, ML-based analysis, and recommendation generation in OptiCrop.
